

# Kobe Michael

## Web Developer and Designer

### CAREER OBJECTIVE

With five years of hands-on experience in frontend development using Vue.js, React.js, JavaScript, and TypeScript, I'm passionate about creating elegant and user-friendly interfaces. I'm proficient with Tailwind CSS and SASS/SCSS and also utilize design tools like Figma and Adobe XD. I'm now seeking a role that lets me apply my expertise to innovate and contribute to cutting-edge frontend projects and or web applications.

### EXPERIENCE ( 1 / 2 )

#### Frontend Developer

Cloud Employee LTD

Nov 2021 - Present - 2 year, Remote

Directly collaborated with the SupaPass Team to manage and maintain and guide product development discussions. Collaborated directly with the CTO and other teams to develop internal system for Cloud Employee.

#### Senior Frontend Developer

SupaPass

Nov 2021 - July 2023 - 1 year 9 mos, Remote

Directly collaborated with CEO, Product team, and Dev team to prototype, design, and implement features and fixes to the product. Work towards feature and experience parity with iOS and Android platform apps, while adhering to the UI/UX patterns users expect on the web.

#### Frontend Engineer - BIZMAKE Project

CODY Web Development Inc.

Jan 2021 - Oct 2021 - 10 mos, Philippines / Remote

Worked closely with the team that spearheaded the canvas feature implementation and resolved software defects in a whiteboard-style application. Collaborating closely with our Japanese developers and managers.
