EXPERIENCE

Frontend Developer

[Cloud Employee LTD](#)

Nov 2021 - Present

- Teamed up with CloudEmployee's CTO and collaborated closely with Storma's Backend Developers to conceive and execute an internal system.
- Employed technologies such as **Vue.js**, **Nuxt.js**, **TypeScript**, and **TailwindCSS** to architect and bring the project to fruition.
- Executed a strategic initiative that propelled the project to completion a remarkable **four days** ahead of schedule.

Senior Frontend Engineer

[SupaPass](#)

Nov 2021 - July 2023

- Optimized collaboration with the SupaPass Team, catalyzing accelerated product development for enhanced efficiency. Leveraged technologies including **React**, **TypeScript**, **Next.js**, **GraphQL**, and **TailwindCSS**
- Significantly expedited feature rollout by slashing turnaround time by **seven** days.
- Delivered impactful consulting to elevate the web application's user interface and enhance the overall user experience significantly.

Frontend Engineer

[CODY Web Development Inc.](#)

Sep 2020 - Oct 2021

- Spearheaded the frontend development of Arise company's employee monitoring system, harnessing the capabilities of **React.js** and **Chart.js** to pioneer cutting-edge solutions and ensure a user-friendly interface.
 - Encompassed features: location data presentation, work hours monitoring, incident recording, and more
 - Successfully delivered the project **two weeks ahead** of the deadline
- Championed the implementation of the canvas/whiteboard feature in collaboration with the BizMake team, propelling innovation and fostering collaboration through **Vue.js** and **SASS**.
 - Systematically optimized codebase for improved performance and engaged in rigorous collaboration with Japanese backend developers and team lead

Frontend Web Developer

[BPOSeats.com](#)

Apr 2019 - Aug 2020

- Led collaborative initiatives with the CEO, project managers, and design team to enhance UI/UX through a streamlined end-to-end design process. Created wireframes and design templates using **Vue.js** and **SASS**.
- Collaborated with the CEO and project manager to assess critical features, guiding the creation of design mock-ups using **Figma**.

EDUCATION

Bachelor of Science

[University of San Carlos](#)

Jun 2015 - Dec 2018

- Major in Computer Science

PROJECTS

- **Real Estate Project** - Updated UK HeadStartProperties designs using React, TypeScript, and TailwindCSS (Oct 2023).
- **KobeMichael.works** - A personal online web portfolio (React, Next.js, TailwindCSS). Link to [site](#) (Nov 2023)
