SKILLS

WORK EXPERIENCE

Frontend Developer

[SheepCRM](#)

February 2024 - Present

- Collaborate with the SheepCRM team on a codebase serving over **500+** users.
- Utilizing **React** for component and state management through **React Context**.
- Implementing a **Backend for Frontend (BFF)** pattern and follow Agile development practices.

Frontend Developer

[Cloud Employee LTD](#)

November 2021 - Present

- Partnered with CloudEmployee's CTO and coordinated with Storma's five Backend Developers to develop an internal system. Leveraged **Vue.js**, **Nuxt.js**, **TypeScript**, and **TailwindCSS** to architect and successfully complete the project **four days ahead** of schedule.

Senior Frontend Engineer

[SupaPass](#)

November 2021 - July 2023

- Optimized collaboration with the SupaPass Team, accelerating product development and achieving a 3-day improvement in efficiency. Utilized technologies such as **React**, **TypeScript**, **Next.js**, **GraphQL**, and **TailwindCSS**.
- Significantly expedited feature rollout by slashing turnaround time by an average of **three** days.
- Delivered impactful consulting that improved the web application's user interface, boosting user experience metrics by **30%**.

Frontend Engineer

[CODY Web Development Inc.](#)

September 2020 - October 2021

- Spearheaded the frontend development of Arise company's employee monitoring system, harnessing the capabilities of **React.js** and **Chart.js** to pioneer cutting-edge solutions and ensure a user-friendly interface.
 - Encompassed features: location data presentation, work hours monitoring, incident recording, and more.
 - Successfully delivered the project **two weeks ahead** of the deadline.
- Led the implementation of the canvas/whiteboard feature in partnership with the BizMake team, using **Vue.js** and **SASS** to drive innovation and collaboration.
- Enhanced system optimization as evidenced by a **25%** improvement in user engagement metrics.
- Systematically optimized codebase for improved performance and engaged in rigorous collaboration with Japanese backend developers and team lead.

Frontend Web Developer

[BPOSeats.com](#)

April 2019 - August 2020

- Led collaborative initiatives with the CEO, project managers, and design team to enhance UI/UX through a streamlined end-to-end design process. Created wireframes and design templates using **Vue.js** and **SASS**.
- Collaborated with the CEO and project manager to assess critical features, guiding the creation of design mock-ups using **Figma**.

EDUCATION

Bachelor of Science

[University of San Carlos](#)

June 2015 - December 2018

- Major in Computer Science

PROJECTS

- **Real Estate Project** - Updated UK HeadStartProperties designs using **React**, **TypeScript**, and **TailwindCSS** (Oct 2023).
- **KobeMichael.works (v1)** - A personal online web portfolio (**React**, **Next.js**, **TailwindCSS**). (Nov 2023)
